

AUTOLAND[®]

S C I E N T E C H

**Creating and Exporting
Files from Scanner**

Before you begin

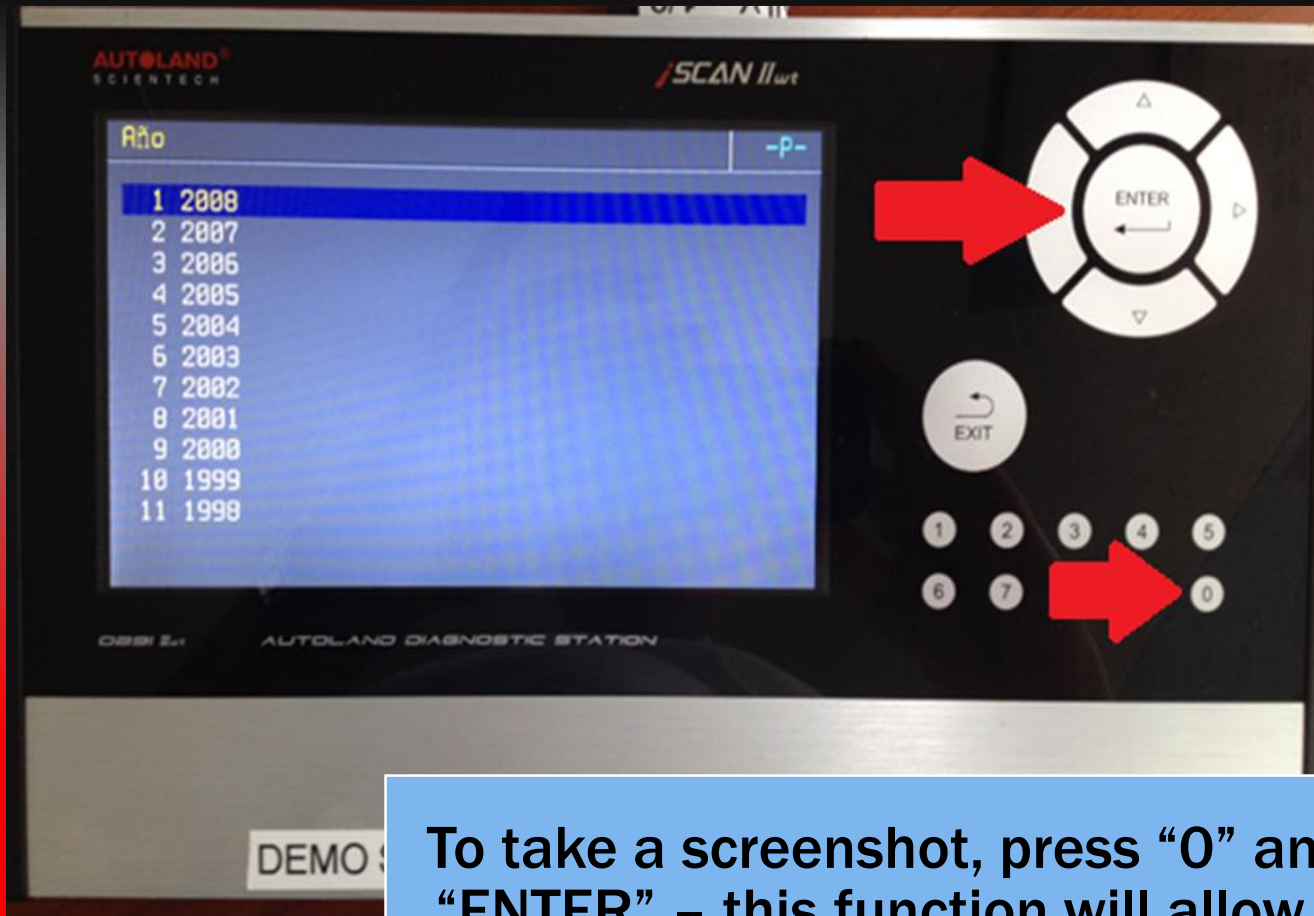

- **Must be a member**
 - Autoland Utility Software only available for members
 - File Manager requires login credentials
- **Autoland Utility must be fully installed**
 - This procedure will use both File Manager and CRM
 - Drivers must be installed to read files from your scanner
- **File Manager must be up to date**
 - Always use the latest software version
 - When using File Manager, please ensure the scanner is powered off and **ONLY** connected via USB

Introduction

This guide will detail how to

- Create log files when the option is available
- Create screen captures from your scanner
- Export Log files from scanner
- Export Screen captures for customer report/printing

Performing Screen Capture

To take a screenshot, press “0” and then “ENTER” – this function will allow you to capture screen into the scanner’s memory.

** You may take as many pictures as you need before customizing your customer print report.

Creating Vehicle Report

```
BMW G Series
1 BMW Diag G Series
  2016.06 USEN
```

Select the appropriate vehicle software

```
Model Selection 0
1 Auto Detection Car
2 Equipment Function Setup
3 Service Reset
4 Report Vehicle Information
```

Choose Report Vehicle Information

```
BMWG 0
The report-file has been created.

Steps of reporting the file:
(1) Connect iSCAN2-WT to PS-MODULE, and select
this file:. \ LOG \ BMWG. log
(2) Press the [LOG] button on the lower-right
corner.
(3) The report-file will be stored to your PC,
and the stored folder is:
C: \ iSCANIIwt _ LOG \ BMWG. log
(4) Please report this file to distributor,
thanks.
```

Report created confirmation

```
BMWG 0
thanks.

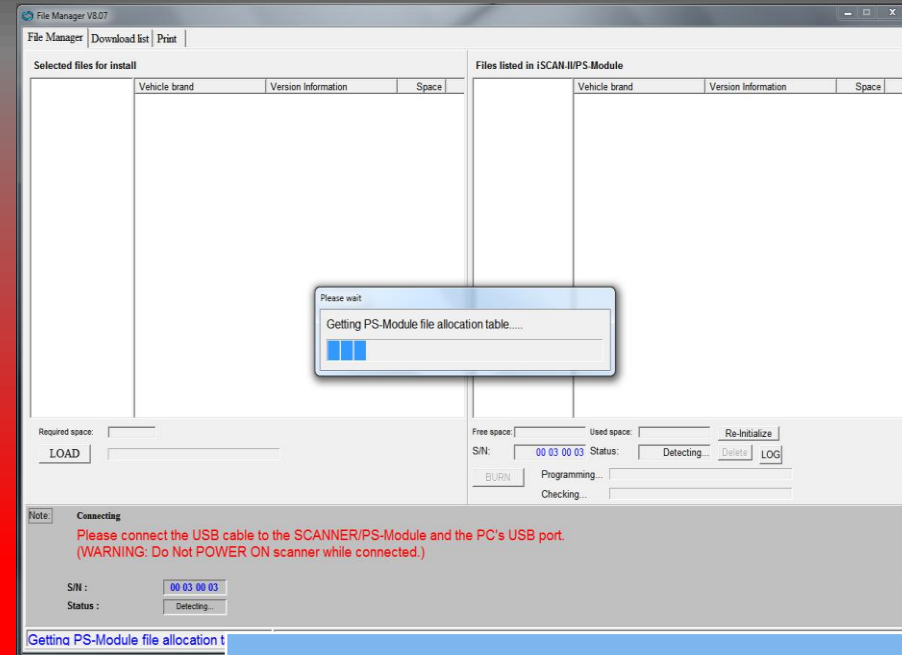

[ENTER \ EXIT]: exit this software
```

Enter/Exit to continue

Open File Manager

Open Autoland Utility from your desktop and launch File Manager

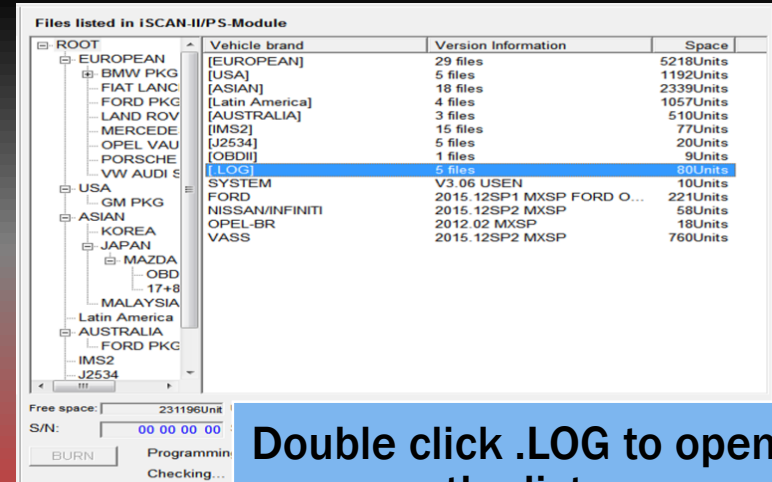

Allow File Manager a few moments to read the scanner

Exporting Log Files

Log files will be saved in the .LOG folder

Double click .LOG to open the list

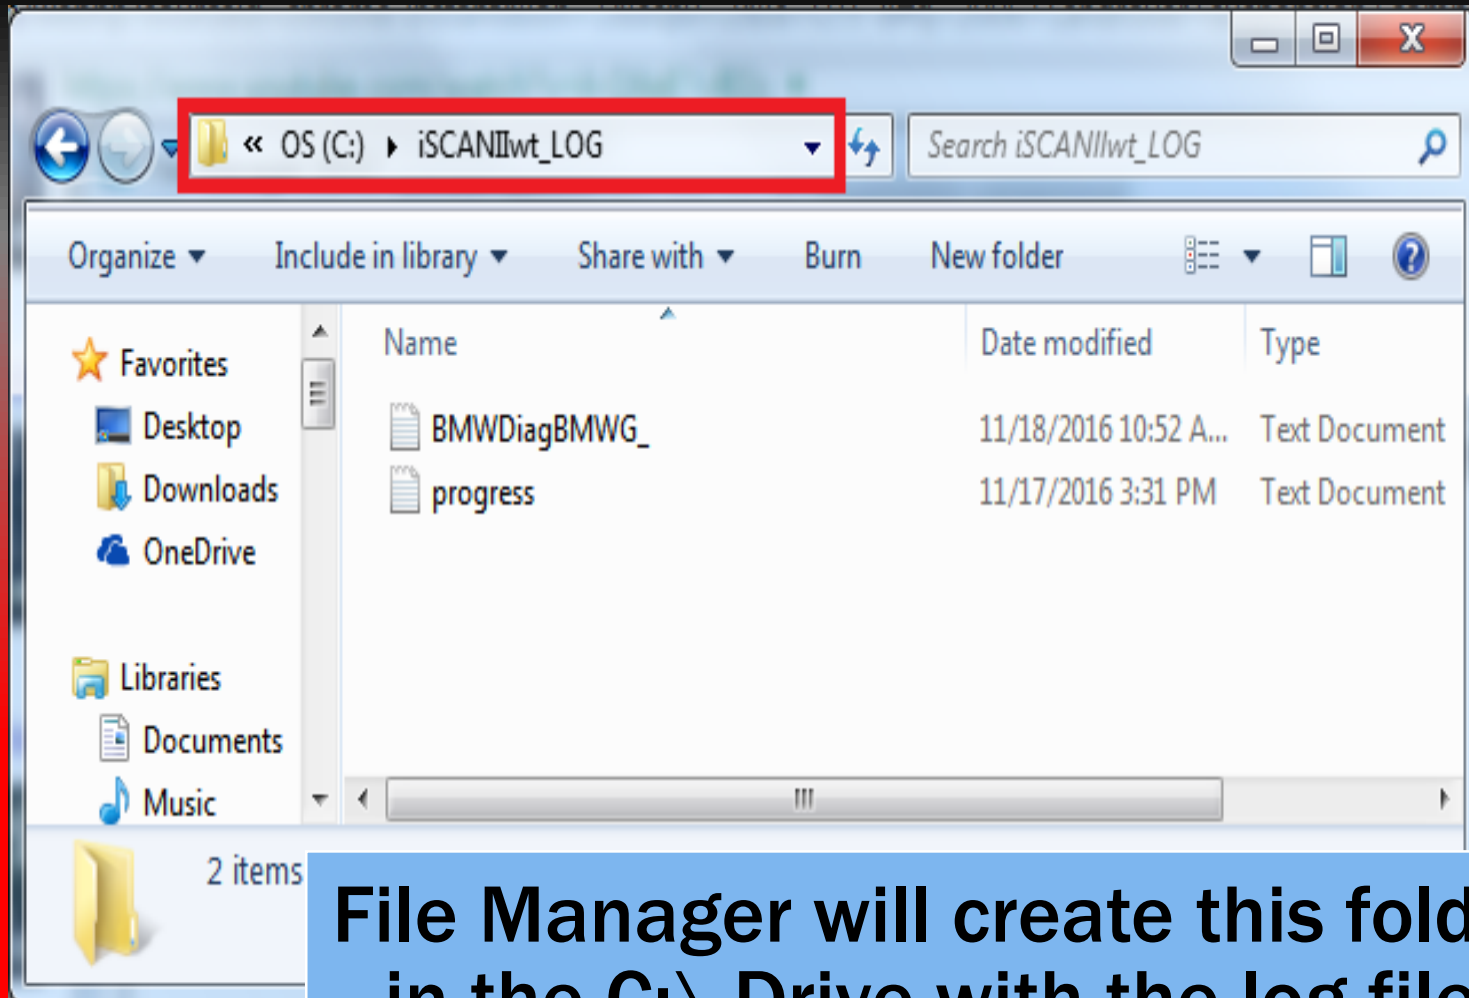

Select the appropriate .log file and click the LOG button

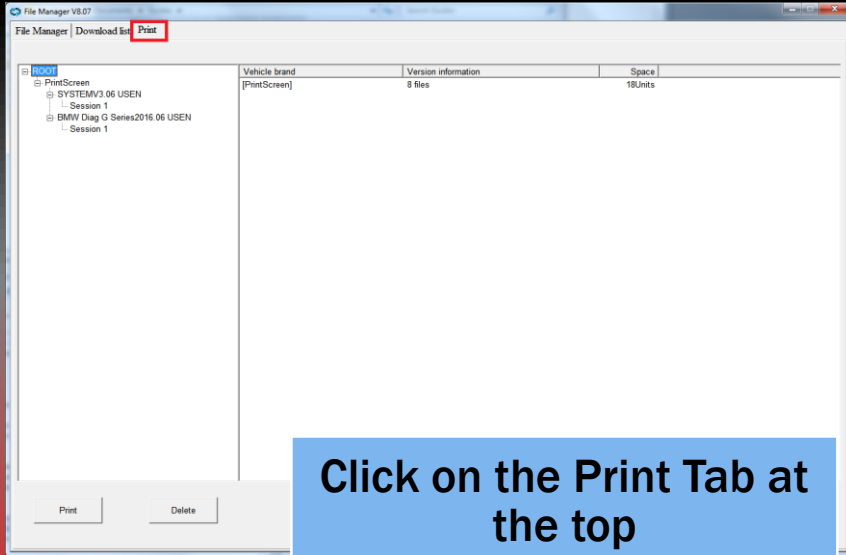

'Please wait' will briefly appear at the bottom of File Manager to confirm

Locating Logs

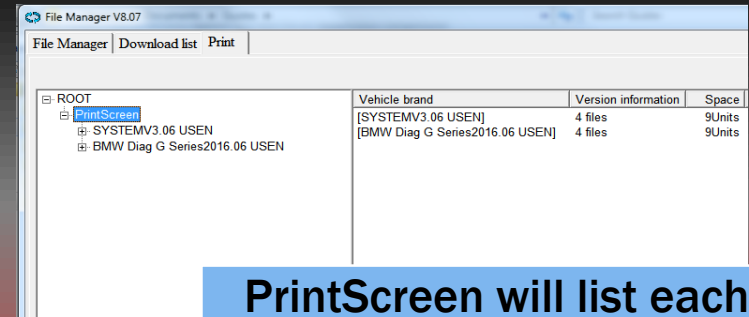

**File Manager will create this folder
in the C:\ Drive with the log file.
[C:\iSCANIIwt_LOG]**

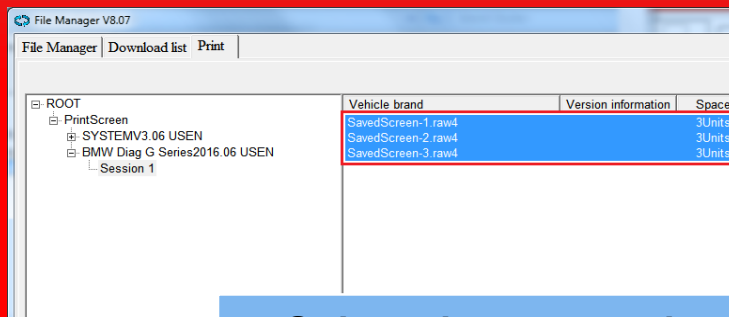

Exporting Screen Captures to CRM

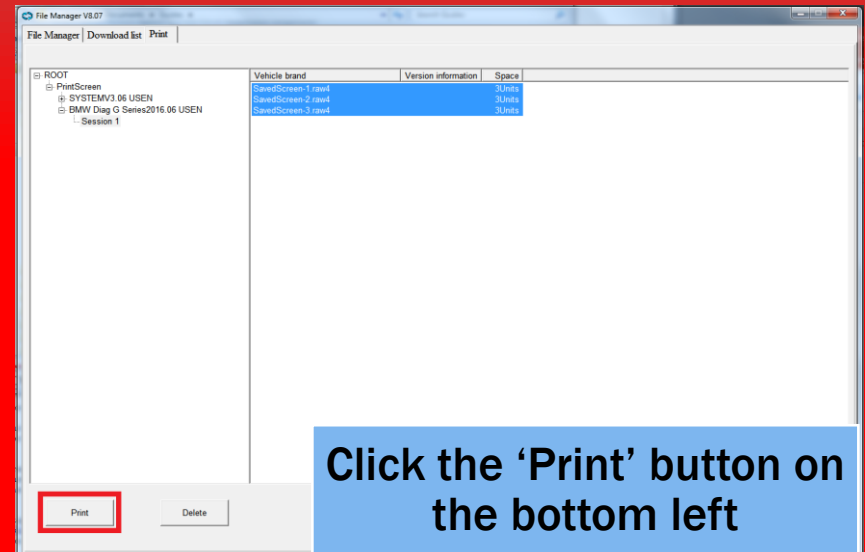

Click on the Print Tab at the top

PrintScreen will list each session by the menu corresponding to when the image was taken

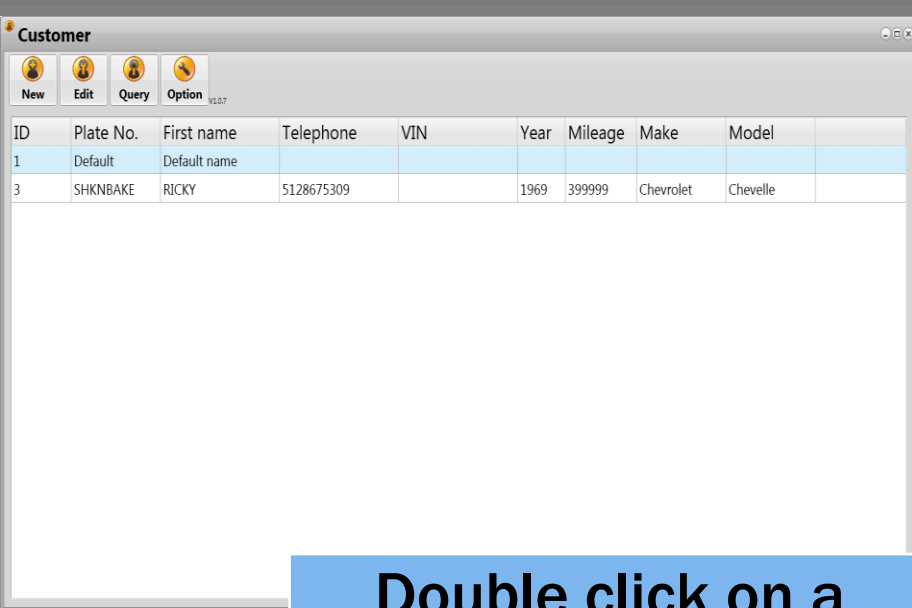

Select the appropriate session and highlight the images

Click the 'Print' button on the bottom left

Assigning Images to Customer

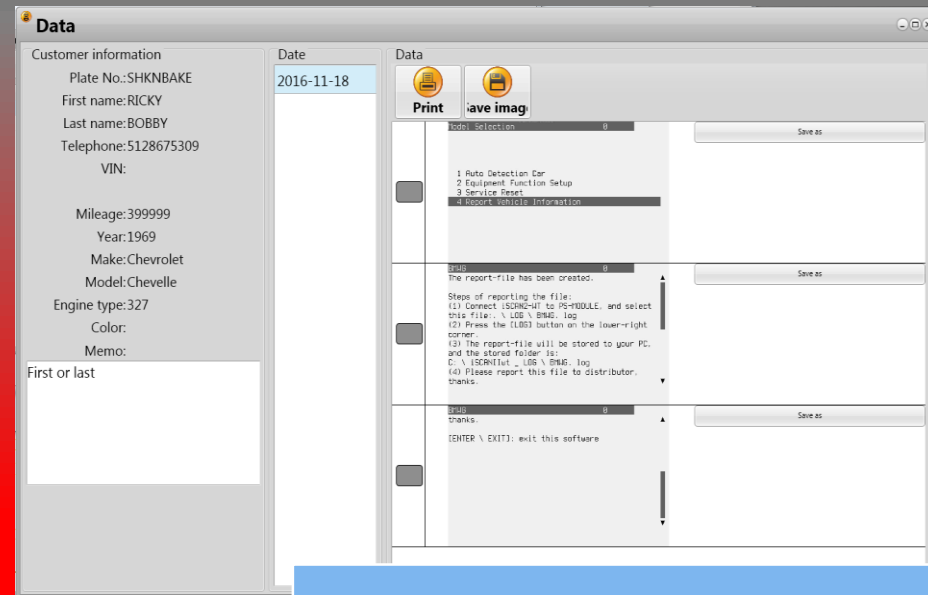

**Clicking on 'Print' will launch CRM

The 'Customer' window displays a table with the following columns: ID, Plate No., First name, Telephone, VIN, Year, Mileage, Make, and Model. The table contains three rows of data.

ID	Plate No.	First name	Telephone	VIN	Year	Mileage	Make	Model
1	Default	Default name						
3	SHKNBAKE	RICKY	5128675309		1969	399999	Chevrolet	Chevelle

Double click on a Customer to assign the images.

The 'Data' window shows customer information for SHKNBAKE, RICKY BOBBY. It includes fields for Plate No., First name, Last name, Telephone, VIN, Mileage, Year, Make, Model, Engine type, Color, and Memo. A 'Print' button is visible. Below the information, a report generation process is shown with steps: (1) Connect ISCRN-UI to PS-MODULE, and select this file: \\LOS\ENMG_log; (2) Press the (L)ED button on the lower-right corner; (3) The report-file will be stored to your PC, and the stored folder is: C:\ISCRNUI_..._LOS\ENMG_log; (4) Please report this file to distributor, thanks.

Customer file has been updated.

Conclusion

Log Files

- In the event of a coding or programming error please forward the log file to your distributor for further assistance.

Screen Captures

- If your scanner is not creating screen captures please ensure working mode is set to off-line at the following location from the Main Menu
 - \ 90.PrintingManager\ 3.PrintingSetup\ 1.WorkingMode\ 1.Off-line

CRM

For a detailed guide on printing from CRM please review 'CRM: How to'

** If you are still experiencing issues: Take a screenshot of the error message and contact Autoland Scientech USA, Inc. at (512)336-5152
