AUTOLAND S C I E N T E C H

Installing the Bluetooth adapter and Pairing your scanner

Before you begin

The iScanll-wt can be controlled and recorded using PC Scanner

• For a detailed guide please review 'PC Scanner: How to'

Please install Autoland Utility first. PC Scanner works in conjunction with CRM

• For a detailed guide, please review 'Autoland Utility Setup Instructions'

If the computer has built-in Bluetooth please use the default software to pair with your scanner.

• You may be prompted for a PIN, use '5191'

Windows can manage the bluetooth connection for most generic adapters

• For details, please view the details found after the summary

Set PC-Link to Bluetooth

click on setup.exe

Run Setup Wizard

Enable / Launch Bluetooth

Search for devices

*** Other wireless devices may appear, make sure you select the device as shown on image which has a question mark symbol)

Pair device

Summary

- **1**. Complete the Bluetooth Adapter Installation from CD or Download.
- 2. Connect your USB Bluetooth adapter to computer and launch BlueSoleil
- 3. On your scanner enable Bluetooth using the following menu options. /100.Setup / 5.PC-Link / 2.PC-Link ON via Bluetooth /'Enter' to confirm
- 4. On Bluetooth program click on Orange Sun and search for scanner and right click to pair to enter passkey: 5191
- 5. Pairing is successful on seeing red check mark next to scanner description.
- 6. To assign your device a COM port click on the Serial Icon, or double click the scanner. Once the device appears in Green you can use the Serial option in PC Scanner

** If you are still experiencing issues: Take a screenshot of the error message and contact Autoland Scientech USA, Inc. at (512)336-5152
