**How to update your  
scanner**

# Before you begin

- **You must be registered as an Autoland Member**
  - For a detailed guide please review 'How to register as a member'
- **Your scanner must be registered to you.**
  - For a detailed guide please review 'How to register your scanner'
- **Autoland Utility must be installed on the PC**
  - For a detailed guide please review 'Autoland Utility Setup'
- **Autoland Utility has been updated with the latest version of File Manager**
  - For a detailed guide please review 'Updating File Manager'
- **Please ensure the scanner is powered off and ONLY connected via USB during this process.**

# Launch File Manager

**Open Autoland Utility and  
Select File Manager**

# Reading Scanner

The screenshot shows the File Manager V8.07 application window. The main interface is divided into two columns: 'Selected files for install' and 'Files listed in iSCAN-II/PS-Module'. Both columns have a table with headers 'Vehicle brand', 'Version Information', and 'Space'. A 'Please wait' dialog box is centered over the interface, displaying the text 'Getting PS-Module file allocation table.....' and a progress bar with three blue segments. At the bottom of the window, there is a status bar with a 'Note:' section containing a red warning: 'Please connect the USB cable to the SCANNER/PS-Module and the PC's USB port. (WARNING: Do Not POWER ON scanner while connected.)'. Below the note, the S/N is '00 03 00 03' and the Status is 'Detecting...'. The taskbar at the bottom shows the active window title as 'Getting PS-Module file allocation table..... Please wait>'. The background of the entire image is a red-to-black gradient.

File Manager V8.07

Status : <b>Device not EXIST</b>			
<b>Device not EXIST</b>			

- If you see 'Device not EXIST' at any point you will need to plug the scanner into the computer
- If the unit is already connected, simply disconnect the USB cable for a couple seconds and reconnect

# Click on Download List tab

Double click on **New order** or **Double click here for new order**.

PSM S/N	Status	Download progress	Next Step
New order			Double click here for new order

New order request

if you want to request a new order, please input PSM number(8 digitals, ex. 00018000):

OK Cancel

Information

 PSM\_NO:000, do you want to Request a new order?

Yes No

When prompted, enter your serial number (in the **000xxxxx** format) and confirm your order.

# Downloading Order

File Manager	Download list	Print		
	PSM S/N	Status	Download progress	Next Step
	000	Order accepted(10/17/2014 11:47:18 AM)		Wait for prepare files
	New order			Double click here for new order

Your order will be accepted by the server and in 5-10 minutes you will start seeing the files being downloaded. Make sure and wait for the download to get to **100%**.

File Manager	Download list	Print		
	PSM S/N	Status	Download progress	Next Step
	000	Downloading(10/17/2014 11:53:18 AM)	9/45(20%)	Downloading...(898)
	New order			Double click here for new order

\* If your order does not fetch anything and instead shows **0/0 (100%)** just create a new order and it will eventually start fetching files.

PSM S/N	Status	Download progress	Next Step
000	Download Finished(10/3/2014 1:53:24 PM)	0/0(100%)	Program(Double click)
New order			Double click here for new order

New order request

if you want to request a new order, please input PSM number(8 digitals, ex. 00018000):

OK Cancel

Information

PSM\_NO:000,do you want to Request a new order?

Yes No

**\* For WT owners:**

If it looks like it's stuck at **98%**. Do not worry, the last file to download is the biggest one (BMW Encoding Database) so it takes longer to download - it will eventually get to 100%.

	PSM S/N	Status	Download progress	Next Step
	000	Downloading(11/13/2014 11:40:58 AM)	69/70(98%)	Downloading...(998)
	New order			<a href="#">Double click here for new order</a>

6. When the download is done, double click on **Program (Double click)** to start the update.

File Manager	Download list	Print

000	Download Finished(10/17/2014 12:05:13 PM)	45/45(100%)	Program(Double click)	
New order			Double click here for new order	

**Confirm you want to start the update.**

**\* If you see this pop-up, unplug your scanner, plug it back in and repeat the procedure.**

# Programming in progress

The screenshot shows the File Manager V8.07 interface with two main panels. The left panel, titled 'Selected files for install', shows a tree view of files organized by vehicle brand. The right panel, titled 'Files listed in iSCAN-II/PS-Module', shows a table of files currently on the module, with some entries highlighted in red to indicate they are not yet programmed.

Vehicle brand	Version Information	Space
[EUROPEAN]	29 files	5218Units

S/N: 00 03 00 03 Status: Device EXIST  
Buttons: LOAD, BURN, Re-Initialize, Delete, LOG

Note: **Programming**  
Select file and click the [BURN] button to burn the software to the iSCAN-II/cartridge.  
Wait until the status monitor indicates that the select software has been successfully downloaded to the iSCAN-II/cartridge then remove the USB cable.

Programming.... Please wait>

Files remaining to be programmed will appear in red

# Programming complete

The screenshot shows the File Manager V8.07 interface. A central dialog box titled 'Information' displays 'Program OK!' with an 'OK' button. The main window is divided into two panes. The left pane, 'Selected files for install', is empty. The right pane, 'Files listed in iSCAN-II/PS-Module', shows a tree view of folders and a table of files.

Vehicle brand	Version Information	Space
[EUROPEAN]	29 files	5218Units
[USA]	5 files	1192Units
[ASIAN]	18 files	2339Units
[Latin America]	4 files	1057Units
[AUSTRALIA]	3 files	510Units
[IMS2]	15 files	77Units
[J2534]	5 files	20Units
[OBDII]	1 files	9Units
SYSTEM	V3.06 USEN	10Units
FORD	2015.12SP1 MXSP FORD O...	221Units
NISSAN/INFINITI	2015.12SP2 MXSP	58Units
OPEL-BR	2012.02 MXSP	18Units
VASS	2015.12SP2 MXSP	760Units

At the bottom, there are fields for 'Required space:', 'Free space: 231276Unit', and 'Used space: 11489Unit'. A 'LOAD' button is on the left, and 'BURN', 'Re-Initialize', 'S/N: 00 03 00 03', 'Status: Device EXIST', 'Delete', and 'LOG' buttons are on the right. A progress bar for 'Programming...' is partially filled.

**Note: Programming**  
Select file and click the [BURN] button to burn the software to the iSCAN-II/cartridge.  
Wait until the status monitor indicates that the select software has been successfully downloaded to the iSCAN-II/cartridge then remove the USB cable.

Program OK! Program OK!

When 'Program OK' appears click 'OK' and disconnect your scanner

# Conclusion

- Download times will vary based on your connection speed and subscription type
  - Programming times will vary based on your PC Performance
  - If you suspect software issues
    - Please perform Re-initializing steps as detailed in the last slide
    - ie. Duplicate Files, Scanner was disconnected while programming, computer was restarted while programming scanner.
- \*\*IMPORTANT: Do NOT press the Re-Initialize button for any other reason**
- This will wipe out all software on the unit.

**\*\* If you are still experiencing issues: Take a screenshot of the error message and contact Autoland Scientech USA, Inc. at (512)336-5152**

# File Tree

- Logs, Screenshots or complete folders can be removed
  - Select one or more files and click 'Delete' at the bottom.
  - Then, click Yes to confirm

- You should see the following error if the system file was selected.
  - \*\*\* If the system file has been deleted continue to the last slide to Re-initialize

# Re-initializing

**To clear all software from your scanner click Re-initialize, then Click 'Yes' to confirm**

**\*\* If the system file has been removed the scanner MUST be re-initialized**
